BorderPlus commits Rs 10 Cr worth scholarships over next 2 years to equip Indian nurses for global careers

12 May 2025 | News

Launches first regional training & support centre for nurses in Kochi

BorderPlus, a leading workforce mobility platform, reaffirms its unwavering commitment to the nation's healthcare champions. Recognising the importance of nurses and the world's urgent need for their expertise and skills, BorderPlus has announced a significant investment in their future, committing Rs 10 crore in scholarships over the next 2 years. The initiative will support deserving and aspiring nurses, enabling them to build successful international careers.

Marking a key milestone in this mission, BorderPlus also unveiled its first regional Training & Support Center in Kochi, a hub aimed at nurturing nursing talent from the southern region through personalised guidance and resources.

The centre currently supports over 120 candidates, with plans to expand this capacity to more than 500. It offers in-person exam preparation, personalised counseling, and comprehensive documentation support. Through this centre, BorderPlus will also provide digital offerings, directly supporting nurses across Kerala and neighbouring regions. The Kochi centre will be operated by a trusted local franchisee partner and enrollments have already started.

Mayank Kumar and Ayush Mathur, Co-founders of BorderPlus said, "The global healthcare sector faces a significant nursing shortage, presenting a unique opportunity for India's vast pool of skilled and dedicated nurses. At BorderPlus, our mission is to empower these professionals by providing structured, ethical, and transparent pathways to international careers."

Despite India’s rich nursing talent, candidates exploring global career pathways often face hurdles such as end-mile skilling gap, prohibitive exam costs, complex documentation requirements, and a lack of reliable guidance. The scholarship, open to Indian nurses, aims to address these fundamental barriers by offering crucial financial support and structured guidance enabling Indian nurses to pursue overseas careers with greater confidence and clarity.
