Granules India and NIPER launch Centre of Excellence for sustainable pharma innovation

04 September 2025 | News

To empower students and researchers with access to cutting-edge facilities and resources

Granules India, in partnership with the National Institute of Pharmaceutical Education and Research (NIPER), S.A.S Nagar in Mohali, inaugurated the Dr. Chigurupati Centre of Excellence in Innovative and Sustainable Pharmaceutical Development (CCE-ISPD).

This Granules' CSR initiative aims to empower students and researchers with access to cutting-edge facilities and resources, fostering innovation in eco-friendly solutions for learning pharmaceutical manufacturing.

This strategic move is in line with the company's broader vision of integrating sustainability into its core operations. By embedding innovation into green practices, Granules India aims to not only enhance operational efficiency and business resilience but also contribute positively to society and the environment. This initiative reflects the company's belief that long-term success is deeply rooted in ethical responsibility and environmental stewardship.

The Centre, under the supervision of Dr Arvind.K Bansal, Professor Department of Pharmaceutics, Lead and Academic Supervisor of the Centre will harness NIPER's academic and research strengths alongside Granules India's industrial expertise to develop scalable, eco-friendly solutions for the pharmaceutical sector. The collaboration will focus on interface between API and formulation manufacturing, reducing the carbon footprint in formulation production, creating intellectual property in sustainable technologies, training next-generation scientists, and setting new industry benchmarks in sustainable manufacturing.

Together, Granules India and NIPER aim to set a precedent for how industry–academia partnerships can accelerate the transition towards a greener, more responsible future for global healthcare.
