Venus Remedies inaugurates 1,32,000 sq. ft state-of-the-art global fulfillment centre

15 October 2025 | News

Can process up to 10,000 orders per day across B2B and B2C channels

Pharmaceutical company Venus Remedies has inaugurated its state-of-the-art Venus Global Fulfillment Centre (VGFC) in Mohali, Punjab. Spanning 132,000 square feet with a built-up area of 66,000 square feet, the facility is designed to significantly enhance the company's global logistics and supply chain capabilities.

Built to meet international standards including WHO GDP, EU GMP, PAHO, CDSCO, GDP AEO, and ISO certifications, the VGFC ensures product integrity, quality compliance, and timely access to medicines across regulated and semi-regulated markets.

The centre can process up to 10,000 orders per day across B2B and B2C channels, with current utilisation at approximately 30,000 orders per month. Its infrastructure includes temperature-controlled storage, RFID and barcode-based tracking, and automated sorting and retrieval systems.

With capacity for more than 5,000 pallets and storage for over 50 million product units, VGFC is equipped to support dynamic global demand while maintaining precision and reliability.

"The VGFC represents a strategic advancement in our global supply framework," said Saransh Chaudhary, President, Global Critical Care, Venus Remedies Limited, and CEO, Venus Medicine Research Centre. "It enhances our responsiveness to urgent healthcare needs and supports uninterrupted patient access across over 100 countries."

The facility also aligns with Venus Remedies' sustainability objectives, integrating energy-efficient HVAC systems, rainwater harvesting, waste management through authorised partners, and eco-conscious logistics practices.

With VGFC, Venus Remedies strengthens its ability to serve critical care, oncology, and antimicrobial markets worldwide, supporting the company's vision to deliver safe, high-quality medicines with operational excellence and global reliability.
