MAHE teams up with OpenAI to integrate artificial intelligence to enhance outcomes

21 February 2026 | News

Partnership aligns with MAHEâ??s long-term digital transformation roadmap

Manipal Academy of Higher Education (MAHE), an Institution of Eminence Deemed to be University in Karnataka, has partnered with OpenAI to integrate advanced artificial intelligence (AI) tools across teaching, research, and academic administration.

This collaboration aims to enhance learning outcomes, accelerate research productivity, and equip students and faculty with critical AI skills for a rapidly evolving global workforce. MAHE will implement AI-powered tools and resources across its academic programs to support personalised learning, boost critical thinking, and encourage ethical AI use. Faculty will also gain access to advanced AI tools for curriculum planning, research, and innovation.

The collaboration will focus on building AI literacy across disciplines, ensuring that students from Health Sciences, Technology & Science, Management, Law, Humanities & Social Sciences, and allied fields gain practical exposure to AI applications relevant to their domains. MAHE will also promote interdisciplinary research and innovation using AI to address complex real-world challenges.

MAHE will also establish structured AI governance guidelines to ensure responsible, ethical, and transparent governance use of artificial intelligence across academic functions.
