IndiaAI Startups Global Acceleration Programme selects 10 startups for second batch

17 April 2026 | News

Second batch comprising of health tech, climate tech, edtech, satellite intelligence, cognitive AI

As part of its continued commitment to advancing India's AI capabilities across the globe, IndiaAI Mission under the Ministry of Electronics and Information Technology, has announced the selection of 10 cutting-edge Indian AI startups for the second batch of the IndiaAI Startups Global Acceleration Programme, an international initiative developed in partnership with Station F, Paris, and HEC Paris.

The programme aligns with India's National AI Strategy, which emphasises cross-border knowledge exchange, engagement with advanced entrepreneurial ecosystems, and global market integration. By facilitating access to international markets, fostering innovation, and attracting global investment, this initiative supports India's vision of becoming a leader in AI-based solutions.

Selected Startups for ISG Batch II

- **AI Health Highway India:** AI-enabled smart stethoscope to screen, identify and predict cardiovascular and respiratory disorders
- **Aviros:** A Vision AI platform that enables genital, context-aware intelligence and automation in large-scale physical environments.
- **Cognecto:** An AI Infrastructure Intelligence Platform
- **Flaunt:** Multimodal AI Agent for Beauty/Fashion Trends and Short-Form Video Marketing
- **GreenFI.ai (ClimateForce Technologies):** AI-enabled risk management software for environmental, social, and governance compliance
- **Infiheal HealthTech :** Hilo, is a multilingual AI mental health companion that features human intervention.
- **Inlastro Learning :** An AI-powered job simulation platform that verifies the execution readiness of humans and AI agents before deployment in the real world.
- **Predco:** AI-powered compliance for modern manufacturing in the field of human resources, process and product
- **SkyServe (HiSpace Technologies):** AI infrastructure for Earth and space surveillance
- **TestAING Solutions:** A comprehensive QA and compliance suite for AI solutions, ensuring reliable and responsible AI.

These 10 startups have been selected through a rigorous multi-stage selection process and will represent India's dynamic AI innovation ecosystem at Station F, where they have been empanelled in an intensive program to help them expand globally. The programme consists of a 3-week online preparation module followed by a three-month intensive residential programme in Paris, France.
