Amneal Pharma to acquire Kashiv BioSciences to create fully integrated global biosimilar leader

23 April 2026 | News

Leveraging Kashiv BioSciences's development and manufacturing capabilities with Amneal Pharmaceuticals's commercial strengths

Kashiv BioSciences has entered into a definitive agreement to be acquired by Amneal Pharmaceuticals, Inc. The transaction is subject to approval by Amneal shareholders, receipt of regulatory approvals and satisfaction of customary closing conditions and is expected to close in the second half of 2026.

This acquisition combines Kashiv's extensive expertise in the development and manufacturing of biosimilars with Amneal's scale and commercialisation capabilities. Kashiv is headquartered in Piscataway, New Jersey with operations in the US and India. Amneal is headquartered in Bridgewater, New Jersey, and is a leading biopharmaceutical company with one of the largest affordable medicine businesses in the US.

Together, the companies will establish a fully integrated biosimilar platform at scale, to deliver high-quality, affordable therapies, expand patient access, and strengthen their position in the global biopharmaceutical landscape.

Dr Sandeep Athalye, Chief Executive Officer at Kashiv said, "We look forward to building on our proven track record of product approvals and advancing our biosimilars pipeline as we work together to expand patient access to life-changing therapies."
