Elite Expertise expands to India with Hyderabad office to support career opportunities for pharmacists

04 May 2026 | News

Aimed at supporting the growing number of Indian pharmacists aspiring to build careers abroad

Global EdTech platform Elite Expertise, known for its specialised training programmes for internationally trained pharmacists, has announced its expansion into India with the launch of its new office in Hyderabad aimed at supporting the growing number of Indian pharmacists aspiring to build careers abroad.

The move marks a strategic step toward **supporting Indian pharmacy graduates** and **professionals** aiming to **build careers abroad**, particularly in countries like **Australia, Canada, Ireland, New Zealand**, and the **Middle East**.

The Hyderabad office is expected to be the first of several initiatives aimed at strengthening Elite Expertise's footprint in India, with plans for **workshops, partnerships**, and **hybrid learning models** in the near future.

Elite Expertise offers *Expert-led preparation for global licensing exams; Step-by-step guidance for registration pathways; Career mentoring and interview preparation; Real-world insights into global pharmacy systems; Courses Aligned with Global Licensing Standards*

Through its programmes, the platform provides training for major international key licensing exams, including *OPRA (Australia & New Zealand); PEBC (Canada); PSI Equivalence (Ireland); Australian Intern Written & Oral Exams; DHA Exam (Dubai)*

These programmes are designed to help candidates **navigate complex regulatory systems** and **improve success rates** in **competitive global exams**.

Hyderabad has emerged as a major hub for pharmaceutical education and talent in India, making it an ideal location for Elite Expertise's expansion.

The new office will serve and act as a regional support center, enabling:

Direct student engagement

Local mentorship and counselling

Workshops and offline interactions

Community-building initiatives

Access to expert-led training programs aligned with global standards

With its India presence, the company aims to:

Expand access to high-quality training

Build stronger India-to-global career pipelines

Create a support ecosystem for aspiring pharmacists

Following the success of **Pharma Connect Melbourne 2026**, which brought together over **200 pharmacists, interns**, and **international graduates**, Elite Expertise has plans to host the next edition of Pharma Connect in India.

The upcoming **India edition** of **Pharma Connect** is expected to further strengthen collaboration between **education, industry**, and **global healthcare opportunities**. The India edition is expected to replicate the **community-first, practical learning format** that made the Melbourne event highly impactful.
