Healthark brings back RISE Health Innovation Summit 2026, on Sept 22-24 in Hyderabad

19 August 2026 | News

2026 edition will bring together global experts to discuss the latest developments across healthcare, life sciences, clinical research, AI, and real-world evidence

Building on the success of the RWEsearch & Health Innovation Summit 2025, which recorded 3,100+ registrations, 2,800+ global participants, 62+ speakers, and representation from 42+ organizations across 14+ countries, Healthark returns with the

third edition of its flagship event, [RISE Health Innovation Summit 2026](#).

The three-day hybrid summit will take place virtually on September 22–23 and conclude with a live summit in Hyderabad on September 24, bringing together leaders from across healthcare and life sciences to discuss the innovations shaping the future of the industry.

The summit will feature speakers representing renowned organizations, including **Bayer, Novo Nordisk, Roche, Thermo Fisher Scientific, Deloitte**, and many more, bringing diverse perspectives and deep expertise to the conversation.

The 2026 edition will feature eight dedicated focus areas spanning Global Real-World Data & Evidence, Clinical Trials & Research, AI & Automation, Indian GCCs, Emerging Biotech, Indian Healthcare, Quality & Regulatory Assurance, and Drones in Healthcare.

Building on the strong foundation of its previous editions, **RISE Health Innovation Summit 2026** will continue to bring together global leaders to shape the next chapter of healthcare innovation.

Registrations are now open for **RISE Health Innovation Summit 2026**. Join global experts for three days of discussions shaping the future of healthcare. **Register now.**
