Neuberg Diagnostics strengthens North India footprint in partnership with Mahajan Imaging & Labs

02 September 2026 | News

Partnership accelerates expansion of pathology and integrated diagnostics capabilities

Chennai-based Neuberg Diagnostics has entered into a strategic joint venture partnership with Mahajan Imaging & Labs to strengthen and expand pathology and wellness services across North India.

The collaboration brings together Neuberg's proven pathology and genomics capabilities, clinical and operational expertise, multi-market experience and IT & digital infrastructure with Mahajan Imaging & Labs' decades of experience in radiology, Nuclear Medicine, PET CT and advanced diagnostics, established presence across Delhi NCR & Jaipur, and deep clinical expertise.

As the exclusive partner for seven states of North India, Neuberg is now positioned to leverage Mahajan Imaging & Labs' strong regional presence and existing pathology capabilities to expand its network.

Through this partnership, Neuberg will collaborate with Mahajan Imaging & Labs to strengthen and integrate its presence in the existing labs in Noida, Lucknow and Jammu, reinforcing Neuberg's footprint in the region.

The two organisations will work towards greater integration across pathology, imaging, nuclear medicine and genomics. This partnership enables Neuberg to enhance its wider network across North India with Mahajan Imaging & Labs' established expertise in complex diagnostic evaluation. For Mahajan Imaging & Labs, the partnership brings operating scale and infrastructure to support its next phase of growth. Kabir Mahajan will serve as Chief Executive Officer for the Joint Venture operations, leading the organisation's operations and growth agenda.
