Home Minister Amit Shah Inaugurates new 400 beds tower at Max Smart Super Speciality Hospital in Delhi

03 September 2026 | News

With this expansion, Max Hospital, Saket will have a total capacity of approximately 1,200 beds

Max Smart Super Speciality Hospital, Saket has marked a significant milestone in its journey of advancing tertiary and quaternary healthcare in the National Capital Region with the inauguration of its new 400 beds tower by Union Home Minister and Minsiter of Cooperation Amit Shah.

The state-of-the-art tower will enhance the hospital's capacity to deliver advanced, technology-enabled care to patients across Delhi-NCR and beyond, meeting the growing demand for specialised healthcare. The event was graced by the Chief Minister of Delhi,Rekha Gupta, as Guest of Honour.

With this expansion, Max Hospital, Saket will have a total capacity of approximately 1,200 beds, making it the largest private hospital in Delhi by bed capacity. The hospital brings together comprehensive tertiary and quaternary healthcare capabilities across 22+ specialties, strengthening access to advanced and specialised medical care in the National Capital.

The new facility is equipped with advanced medical technologies, including the Da Vinci Xi Surgical Robot and Mako Total Knee Replacement Robot, supporting precision-driven, minimally invasive procedures across specialties.

With this expansion, Max Healthcare continues to strengthen its healthcare infrastructure in Delhi-NCR, with a focus on delivering advanced clinical care, improving access to specialised treatment and creating an integrated ecosystem for specialised medical care for people from India and across the globe.
