Sri Sathya Sai Heart Hospital inaugurates 16-Bed advanced surgical ICU in Ahmedabad

23 November 2026 | News

A significant step towards strengthening advanced cardiac care for underprivileged children

Sri Sathya Sai Heart Hospital, Kasindra, Ahmedabad, has inaugurated its 16 bed Advanced Surgical Intensive Care Unit (SICU).

The new ICU was inaugurated by Justice Kalpesh Zaveri, former Chief Justice of the Orissa High Court; Justice Devan M. Desai of the Gujarat High Court; and Justice Sanjeev M. Thaker.

The newly inaugurated 16 bed Advanced Surgical ICU will provide enhanced critical care and continuous medical monitoring to children following complex cardiac surgeries. This facility will strengthen the hospital's treatment capacity and enable it to extend its life saving services to more children in need.

The new ICU is not merely an expansion of the hospital's infrastructure but an important milestone in bringing renewed hope and a new lease of life to countless children and their families.

The hospital has also signed MoUs with 11 other states in the country, enabling underprivileged children from across India to access advanced cardiac treatment completely free of cost.
