Distinguished Japanese Governor visits Transasia

A high ranking Japanese delegation led by Governor of Shizuoka Perfecture, his Excellence Dr. Heita Kawakatsu paid a visit to Transasia Bio-Medicals Ltd. The meeting of the Japanese delegation served to build and deepen a trusting partnership between Japan and India. Coincidentally, this high level delegation visit was after the company won the Global Business Excellence Award 2013.

During their one day visit, the high ranking delegation visited the Transasia factory at Seepz, Mumbai.The team was then taken through the manufacturing stations. Later during the day, Mr. Suresh Vazirani, Founder Chairman, Transasia and Mrs. Mala Vazirani, Executive Director, greeted the high level delegation at its head office, followed by a company presentation. The presentation highlighted the progress of the company across the world, future plans and corporate social responsibility activities.

Thanking the company on behalf of the delegation His Excellence Dr. Heita Kawakatsu stated, " This is an awakening experience for us to to know about a gigantic company like Transasia. We whole-heartedly admire the work carried out by Transasia."

Transasia has always been closely working with Japanese companies for the past 30 years. The company recently celebrated 20 years of progressive partnership with Sysmex, Japan, a leading Japanese hematology company.

On the occasion, Mr. Suresh Vazirani, commented that, " Transasia is committed to growing its business in India and across the globe to provide affordable healthcare solutions for billions of people of emerging countries. We thank His Excellence Dr. Heita Kawakatsu and their delegation for their encouragement and guidance."
