Jubilant Life Sciences to participate in Poultry India 2014

Poultry India is an international standard exhibition and a forum with valuable information about poultry industry, feed equipment, technology, breeders, egg farming, poultry nutrition, animal health and international poultry production.

Jubilant will be showcasing its product portfolio that will comprise of several of its existing and its recently launched products in three broad categories of essential supplements, performance enhancers and feed quality enhancers.

Recently, strengthening its portfolio, Jubilant partnered with BioResource International, Inc. (BRI), a global biotechnology company specializing in the research, development and manufacture of high-performance, cost effective enzyme solutions for animal nutrition, for marketing and distribution of selected feed enzyme Xylamax and XylaQuick products in South Asia.
