KIIT launches 'Prototype Challenge 2014'

"Prototype Challenge 2014" is being organized by KIIT Technology Business Incubator, Bhubaneswar, Odisha. All entries may be forwarded over email on or before November 22, 2014 to tbi@kiitincubator.in with the subject line "Prototype" and with all contact details.

As per organizers, there is no specific application format. All applications must include "Executive Summary" about the Prototype and its relevant industrial applications along with a photo. Incase of design submissions, the application must include the design description and necessary illustrations.The challenge provides a platform to innovative product, process design or a prototype ready for showcasing in the contest and win cash prizes. Also, the best entries might even receive seed fund support.

It is important to mention the KIIT Business Incubator is supported by the ministry of science and technology, government of India. It received the Technology Business Incubator in 2009 by National Science and Technology Entreprenuership Development Board (NSTEDB).Â
