Biodigital

Biodigital has emerged as one of the leading suppliers of equipment in the bioresearch market with prime focus in the field of biotechnology and other related fields.

It has range of products, which offers directly to the end users in three market areas including the lifesciences, biotechnology markets, pharmaceuticals and healthcare. It represents well-known brands
in India such as Syngene, Martin Christ, Synbiosis, Biochrom and Sensi-Q for instruments such as Freeze
Dryers, Vacuum Concentrators, Freezers, Centrifuges, Autoclaves, Ice Machines, CO2 Incubators, Tissue

Homogenizers, Electrophoresis Systems; Elisa Readers, Spectrophotometers, Production scale Freeze
Drying Machines, Cold Chain and Blood Chain Systems for storage and transportation of vaccines in the vast product portfolio of the company. It also maintains a good inventory of critical spares so that in the event of a breakdown and fault, the downtime of equipment is reduced to bare minimum.

Biodigital has been concentrating on the excellent after sales service to its customers through a team of service engineers. The company touches base with almost all the leading institutions in India through its wide distribution network located in some of the strategic markets all over India.

It has performed very well and generated a turnover of `30 crore in the FY14 as against `24 crore in the last fiscal year.
