Eppendorf India receives expanded NABL Accreditation

With the existing NABL accreditation for Pipette calibration, Eppendorf India receives expanded NABL accreditation for calibration service in accordance with ISO/IEC 17025:2005 for Temperature (Thermal), Speed (Mechanical) and Time (Electro-Technical). The company can perform these NABL calibration onsite for various laboratory instruments such as centrifuges, incubators (CO2 and BOD), incubator shakers, freezers (Cryo, ULT, -45 Â°C, -20 Â°C), Thermomixer or dry bath, water bath, autoclave, etc.

Calibration and certification of performance of instruments make sure that instruments are performing to specifications. With the accreditation range of +200Â°C to -195Â°C for Temperature, 25 rpm - 30000 rpm for Speed and 60 sec to 3600 sec for Time, it can now provide a certified calibration for a range of laboratory instruments.
