18: Esco Biotech

The ESCO Biotechnology Equipment Division is part of Esco Global group founded in 1978 and was an early pioneer in cleanroom and controlled environment technologies. This foundation enabled Esco to develop into the renowned life sciences equipment solutions provider it is today.

Esco has emerged as a leader in the development of laboratory, medical and pharmaceutical equipment solutions. Products sold in more than 100 countries include biological safety cabinets, lab incubators and ovens, CO² incubators, fume hoods, ductless fume hoods, laminar flow cabinets, ultra-low temperature freezers, laboratory freezers and refrigerators, hospital pharmacy isolators, containment/pharmaceutical products, PCR cabinets, thermal cyclers, animal containment workstations, ART equipment and powder weighing balance enclosures.

ESCO has the largest installed base of imported Bio Safety Cabinets in India with over 3,000 cabinets installed all over the country in different reputed Pharma Companies, Biotech Companies, Research Institutes, Universities and Educational Institutes.

Under the Foundation for Innovative New Diagnostics (FIND) Project, the company received order for supply of Biological Safety Cabinets and Laminar Airflow Cabinets from United Nations Office for Project Services (UNOPS) for TB Hospitals recently.

The company has won a major package order to supply various equipments in IVF - Medical segment from Bansal Hospital - Ayushman Medical Diagnostics Pvt Ltd, Bhopal

In fact, the company is planning to focus on high value equipments and big projects and increase penetration in IVF segment in the year 2014-15.

Esco focus on promoting products in chemical, petrochemical, automobile and allied industrial segments.

Esco is recognized as a global player in containment, clean air and laboratory equipment technology. The company distributes its products to more than 100 countries - and a direct presence in 10 of the key global markets.
