**Caters to molecular bio needs**

JH BIO Innovations is a medium-sized supplier of scientific lab equipments that is based in Bangalore. JH BIO witnessed a flat growth in its sales revenue during FY 2010-11 and recorded `11 crore as compared to `10.9 crore in 2009-10. JB BIO represents many global companies in India including, Consort, Daihan Scientific, Kyratec, labtech, Operon, PP Systems, Skye Instruments, Thermo Scientific, UVItec, Tuttnauer, Steroglass, Orto Alresa and the Advanced Microscopy Group. It entered into an alliance with ORFLO this year for its product, Mozi X Automated Cell Counter. JH BIO offers a range of products such as electrophoresis, pcr, gel documentation systems and freeze dryers among others. It also provides high end instrumentation like real time thermal cycler, liquid handling systems and high-end imaging systems. JH Bio recently introduced 'EVOS' branded digital microscopes from Advanced Microscopy, US.

Revenue:  11 crore

## Biohouse Solutions

### CEO

Mr Rupinder Singh

**Business:** Distributor of life sciences research products

**Start-up Year:** 1991

37

**Address:** Jaipuria Building, Kohla Pur Road, Kamla Nagar, Delhi-110007

**Tel:** +91-11-23850876

**Fax:** +91-11-23854270

**Website:** www.biohouse.in

Revenue:  10.11 crore

## Focuses on strategic growth

Biohouse Solutions was established following the merger of Solution One and Molecular Solutions. The company caters to the needs of healthcare institutions, life science institutions, clinical laboratories, pharma and biotech industries. During FY 2010-11, the company reported revenue of `10.11 crore as compared to `7 crore in FY 2009-10. With an eye on new opportunities, the company is focusing on the strategical changes and is looking to maintain consistent growth in the current FY as well. Biohouse represents several companies including, Adam Equipments for weighing scales and mass measuring equipments; Biohit for liquid handling products; Becton Dickinson Biosciences for antibodies, flow cytometers and general plastic ware; M P Biomedicals for life sciences and fine chemicals. It also represents Kerry Biosciences, Sheffield, AES Chemiunex, Roche Diagnostics, Gen Chemical Corporation and Accelrys.

## Anton Paar India

### MD

Mr Rishi Kaushik

**Business:** Distributor of life sciences equipments

**Start-up Year:** 2009

## Anton Paar on growth path

Anton Paar India is a subsidiary of Anton Paar GmbH, which started its operations on January 1, 2009, to directly serve the India market. Anton Paar produces high-quality measuring and analysis instruments for industrial and research applications. The company firm clocked revenue worth `10 crore in FY 2010-11. Anton Paar has set up sales and service centers at all the regions of India by opening offices at Mumbai, Kolkata, Chennai, Bangalore and Hyderabad. Anton Paar India has a customer support center at its Gurgaon head office, which has training facilities and a state-of-the-art application support laboratory that is staffed by trained chemists and supports users with method development and optimization. The product portfolio of the company includes the polarimetry, refractometry and concentration measurement and highly accurate laboratory instruments such as rheometers and viscometers.

## Crane Process Flow Technologies

### President

Mr Marck Tucker

## A manufacturer for global market

Crane Process Flow Technologies, India, is a global manufacturer of engineered industrial products across a number of focused niches. For FY 2010-11, Crane Process Flow Technologies, India, clocked estimated revenue worth `10 crore. In India, Crane ChemPharma, which is a part of one of the company's five business segments, has two sites - a manufacturing plant in Satara that became a part of Crane in 2001 and a design center in Pune. The Satara site offers specific product range that includes industrial diaphragm valves (IDV); HC4, butterfly, ball and check valves; pumps, actuators, bodies and handles from Crane ChemPharma brands including Saunders and

## Cryogen rides on freezable power

Cryogen Instruments India clocked an estimated revenue of `10 crore in 2010-11. In the pharmaceutical sector some of its prominent clients include Pfizer, Cipla, Glenmark Pharmaceuticals and Reliance Life Sciences. In calibration gas mixtures, Cryogen in association with Scientific and Technical Gases, UK, offers a variety of calibration gas mixtures, standards for industry applications, UHP gases and specialty gases. Some of the products offered under this category include multi-component hydrocarbon mixtures, toxic mixtures and corrosive gases, non reactive mixtures, LEL gas mixtures, mixtures suitable for all gas detection equipment, UHP Gases and specialty gases. In the field of laboratory automation systems, Cryogen's principals include, LabVantage's Sapphire and Labtronics. Moreover, Cryogen also provides cryofilling, medical gas filling services and laboratory automation services to companies.
