

solutions will help better manage the health of patients by providing them with advanced, easy-to-use tools that securely deliver real-time data to their physicians."

In June 2015, Medtronic and Samsung announced a similar collaboration to enable solutions to improve diabetes management for the millions of people at risk and currently living with the disease. The first project focuses on delivering more discreet and convenient access to personal diabetes data by developing mobile applications optimized for Samsung mobile devices that will enable the viewing of insulin pump and continuous glucose monitoring (CGM) sensor information.
