Medi Analytika: a steady growth based on innovation

Medi Analytika, established in 1994, is a leading instrumentation company, supplying state-of-the-art instrumentation from world's leading instrumentation companies from USA, Europe, Israel, Brazil, and Japan. Employing over 45 professionals, the company recorded a turnover of Rs 59.75 crore for FY 2013-14, which is up by Rs 4.55 crore compared to the last fiscal is Rs 55.20 crore.

The company's major customers include all IITs, IISER and major pharma companies including Mylan, Advinus, Aurigene, Dr Reddy, Lupin, Sun Pharma, Lupin, Glenmark, Intas, NATCO Pharma, Wockhardt, Ranbaxy, Torrent Pharma, Zydus Cadila, Panacea Biotec, Troikaa Pharmaceuticals, and Sai Advantium.

In the last fiscal, the company supplied 3D Laser scanning microscope from Femtonics, Hungary; Brain functional Imager from Optical Imaging, Israel; Cuvette microscope from Resolution Optics, Canada; and Hypoxia chambers from Oxford Optronix, UK.

The company announced several key wins. Medi Analytika signed major deals with Advinus Therapeutics, Panacea Biotec, Sun Pharmaceutical, Jai Research Foundation, United Biotech, IISER, IIT Kanpur, IIT Kharagpur, National Brain Research Center, Lupin Pharma R&D Center, inSTEM, CCMB, Intas Pharmaceuticals, Indian Institute of Science, Zydus BSV, and NCBS. In the next fiscal year, the company looks forward to expand its business further and optimistically sees the markets to be very promising.
