NABL accredited pipette calibration at second location in India

Eppendorf Pipette Calibration Centre in Pune has received ISO 17025:2005 accreditation from National Accreditation Board for Testing and Calibration Laboratories (NABL).

The Centre can calibrate any make of piston stroke pipette and issue certificate as per the guidelines of NABL. This certification of ISO / IEC 17025:2005 is given under the category 'Mechanical (volume)' based on the methods recommended in ISO 8655.

The firm already have NABL accredited Pipette Calibration Centre in Chennai.

Eppendorf India's receipt of this accreditation from NABL for the second location in India is first of its kind in the industry for piston stroke pipette. Customers across the country can now calibrate their micro pipettes (fixed, adjustable-volume, mechanical and electronic) and dispensers at the state-of-the-art facility.
