

First India-Sri Lanka joint research symposium held at Colombo

01 June 2017 | News

Both India and Sri Lanka have jointly funded research programmes under the Programme of Cooperation signed in 2011 between the Science and Technology Department, India and the Ministry of Science, Technology and Research of Sri Lanka

First India-Sri Lanka joint research symposium was recently held at Colombo during 29-31 May 2017

The symposium was inaugurated by Prem Jayantha, Sri Lankan Minister for Research, Science & Technology and Taranjit Singh Sandhu, High Commissioner of India.

Indian and Sri Lankan researchers, who have participated in joint R&D projects made presentations covering cooperation in the fields of Traditional Knowledge, Food technology, Indigenous Medicine, Chemical Technology and Earth Sciences.

"During his address, Susil Premajyantha thanked India for its swift response to the Sri Lankan request for flood relief. He also appreciated India's readiness to share meteorological data to improve disaster preparedness."

"The High Commissioner of India noted that India is today well-positioned to make substantial contributions to the research and development (R&D) industry in the world. He added that India is committed to promoting 'science with a human face'. He reiterated India's commitment to sharing its expertise in S & T with Sri Lanka."
