The voice of clinical communities, organizations and YOU!

“Recent trends and approaches in
clinical research, clinical trial and medical writing”

ABC Biologics is all set to organise first International Conference on “Recent trends and approaches in Clinical Research, Clinical Trial and Medical Writing”.

Entitled as CLINICA 2017, this event will going to be held on 1st September at The aloft Hotel, Whitefield, Bangalore.

Clinical research is a critical component of pharmaceutical research and development and it ensures a quicker and better return on investment made for the pharma company. Risk based approach, evolving global regulatory expectations on data integrity of clinical research, novel considerations in study design and different quality attributes of medical writing are some of the emerging trends in this sector.

The conference aims to educate health care researchers about study design, operation, organizing, research computing, regulatory aspects and reporting of clinical trials.

Dr.Sam T Mathew Global Head: Clinical eSubmission & Technical Compliance GlaxoSmithKline Vaccines, Dr.Saral Thangam, CEO ,Norwich clinical Services, India and Tapankumar Shah Country Head - Clinical Operations AstraZeneca Pharma India Ltd. are some of the speakers.

President, vice-president, director, managers, scientist from the clinical research departments of various pharmaceutical companies will also be present.
