NIPER signs MoU with CDRI for research

16 November 2017 | News

The objectives of the programme is to provide cooperation through collaborative research programs in scientific fields of research.

National Institute of Pharmaceutical Education and Research (NIPER), Mohali has signed a Memorandum of Understanding (MoU) with the CSIR-CDRI (Central Drug Research Institute), Lucknow, for research collaboration and development of pharmaceutical sciences.

The objectives of the programme are to promote institutional linkage between the CSIR-CDRI and NIPER and provide cooperation through collaborative research programs in scientific fields of research.

Both institutions will jointly identify specific fields of research and faculty/scientist exchange programmes will be mutually conducted for scientific conferences, workshops symposia, meetings in the areas of drug discovery.

National Institute of Pharmaceutical Education and Research, Mohali is an Indian public Pharmacy research university, and a part of the seven schools, under India's Ministry of Chemicals and Fertilizers.
